PROFESSIONAL SUMMARY

Motivated Computer Science undergraduate at Modern Academy, Cairo, with hands-on experience building full-stack web applications using HTML, CSS, JavaScript, PHP, and Firebase. Skilled in relational database design (SQL Server) and object-oriented programming.

EDUCATION

Bachelor of Science in Computer Science

Modern Academy – Cairo, Egypt

Expected Graduation: October 2028

TECHNICAL SKILLS

Languages	JavaScript · PHP · C++ · SQL · HTML · CSS
Frameworks	Bootstrap
Databases	Microsoft SQL Server · Firebase
Concepts	Object-Oriented Programming (OOP) · Responsive Design
Tools	Git · GitHub · Vercel

PROJECTS

Rental – Rental & Real Estate Marketplace

HTML · CSS · JavaScript · PHP

- Built a full-stack web platform allowing users to list, browse, and manage rental properties with a clean, responsive interface.
- Engineered backend business logic in PHP to handle user authentication, property listings, and search filtering.
- Optimized database queries and frontend performance, reducing page load time significantly.

All-In-One – Supermarket Inventory Manager

HTML · CSS · JavaScript · Firebase

- Developed a real-time inventory management system leveraging Firebase Firestore for live data synchronization across multiple users.
- Designed an intuitive dashboard UI enabling staff to add, update, and track stock levels efficiently.

Artist Gallery – Portfolio Web Application

HTML · CSS · JavaScript · Firebase

- Built and deployed a professional portfolio web app for an independent artist, featuring a dynamic gallery and contact functionality.
- Hosted on Vercel for fast, reliable global delivery with continuous deployment from GitHub.

CERTIFICATIONS

PROFESSIONAL DEVELOPMENT

Egypt Career Summit 2026

British University in Cairo

- Participated in professional development sessions focused on Data Storytelling and Time Management.
